Attention all service members using the Army Tuition Assistance (TA) program!

Requesting TA for college classes will be business-as-usual only until 1 April 2006. After the 1st of April, the Soldiers will process their own TA from any computer using a new Army education *GoArmyEd.com* portal.

The new *GoArmyEd.com* portal is built upon the functionality of the existing eArmyU.com portal. To get ready for the new way of doing business, Soldiers should register for eArmyU now to gain access to the new portal which will be activated in April. This can be accomplished by going to the eArmyU.com website, clicking on "Enroll in eArmyU" and following instructions. Registration for eArmyU will give Soldiers a login, password, and information about the new portal, including a soon-to-be-available online training and a list of participating colleges. Getting a login does not obligate Soldiers to take any eArmyU courses. Local Education Counselor can provide more information.

For Soldiers who are already enrolled in the eArmyU program there is no need to do anything at this time because their existing eArmyU login will access the new portal. Soldiers interested in joining the eArmyU program (laptop or eCourse option) should contact their Education Counselor who will check for eligibility and give them the required paperwork.
